IICL RELEASES IICL 6 INSPECTION OVERVIEW VIDEO

The Institute of International Container Lessors (IICL) as part of its continued rollout of the IICL 6 Inspection Criteria and Processes has just released its IICL 6 Inspection Overview Video that offers a primer for the dry container inspection process under the IICL 6.

The video can be found at: [IICL 6 Inspection Overview Video](#)

“Along with the latest edition of the IICL Dry Container Inspection Manual this video provides a new pathway to simplify and help keep container inspectors up-to-date and educated”, said David Aguilar, Chairman of the IICL’s Technical Committee.

“The IICL 6 overview video offers the container industry an excellent tool for viewing both the revised inspection criteria presented by IICL 6 as well as a better understanding of inspection techniques now adopted by the IICL”, said Gary Danback, IICL Director Technical Services.

“Benefits of the IICL 6 standard”, said Steven Blust, IICL President, “include simplification and efficiency improvement of procedures for container inspections performed at container depots around the world.”

For more information on the new IICL 6 Inspection Criteria please visit <http://www.iicl.org/iicl6>

Additional short videos with a detailed focus on specific areas of the container will be released in the upcoming months to offer a greater understanding of IICL 6 container inspection techniques that help to maintain the high quality and serviceability of IICL Member containers.

Organized in 1971, the IICL is a trade association, representing lessors of maritime containers and intermodal chassis. Its member companies, Beacon Intermodal, CAI International, Direct ChassisLink, Flexi-Van Leasing, SeaCube Containers, Textainer Equipment, TOUAX Container, TRAC Intermodal, and Triton International, own or manage a significant portion of the global leased container and U.S. chassis fleets.

The IICL is active in educational, technological, safety, environmental, governmental, regulatory, and security issues. Complementing its widely accepted publications and annual inspector certification examinations, the IICL offers a wide range of educational training courses.
