-------------------------------------	---------

NOTES

(1) IICL CEU Values based upon the average IICL Member CEU Values as of 30 September 2018.

(2) CEU-Cost Equivalent Unit-A unit of measure based on the value of a container relative to the cost of a new 20 foot standard dry container.

(3) A CEU value is calculated by determining the equipment purchase unit price divided by the 20' standard dry unit cost.

(4) CEU values are listed when 2 or more responses provided for specific equipment types.
