IICL Rolltrailer Inspection & Repair guide +

Equipment Code Standard including photos are now available.

After the release of the IICL Rolltrailer Inspection and Repair guide last year, the IICL is now publishing the Equipment Code Standard (ECS) for Rolltrailers. The Rolltrailer "ECS" provides component codes with the corresponding names and descriptions.

A document with pictures of the components and their respective names and codes is also now available on our website at:

IICL - CCS & ECS Projects - The Institute of International Container Lessors
